Transit Service Score for Public Health Facilities, 2014

Average Health Facility Transit Score  
9.91 83.09

San Francisco  
38.97

- Public Health Facilities
- Community Health Network
  - Community Clinic
  - Free Clinic
  - General Acute Care Hospital

Source: San Francisco Department of Public Health, 2014

Transit service area is defined as the following:

- 1) Total trip time to facility is 30 minutes or less;
- 2) No walking portions of trip are over 0.25 miles;
- 3) Not more than 1 transfer between transit lines.

Methodology:

The Google Transit API was used to calculate average transit trip times. Trip start time was defined as 8:00am.
