

Imdb_Movies_Story_Tableau_Course_Yanfaa

Introduction	Relation between budget, revenue and ..	Change of budget and profit over time	Relation between number of votes and ..	Highest and Lowest rated movies ever!	Most popular genres movies	Finally
--------------	---	---------------------------------------	---	---------------------------------------	----------------------------	---------

First, I have created a new column called "Profit" to calculate the profit/loss of each movies

(profit = revenue_adj - budget_adj)

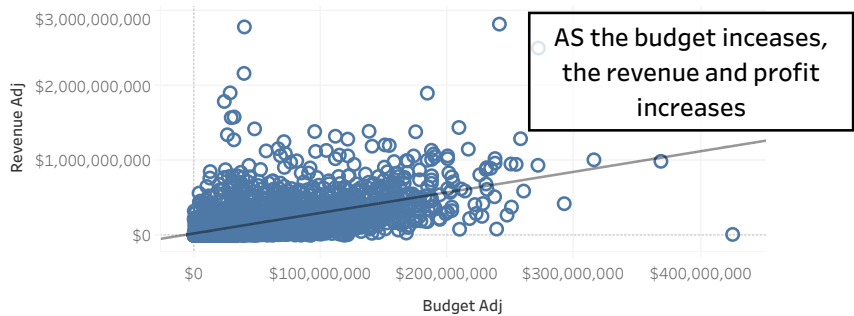

Then the data is used to answer the following questions:

- 1- Relation between the budget and revenue
- 2- Relation between the budget and profit
- 3- Is the budget and profit of movies increase over time ?
- 4- Relation between number of vote and average vote for each movie
- 5- Highest 10 rated movies and lowest 10 rated movies
- 6- Most popular genres of movies
